FLEXO STAINLESS STEEL® XC

- ■ **Virtually Indestructible 304 Stainless Steel**
- ■ **Will Not Discolor Or Rust**
- ■ **Resists Abrasion, Chemicals And UV**
- ■ **Easy To Install**
- ■ **Cuts With Shears Or Serrated Scissors**
- ■ **Halogen Free**

## Braided Stainless Steel XC, Tight Weave for Extra Coverage

Our new X-tra Coverage product, Stainless Steel XC, provides fuller coverage with no transparent elements in the braided construction and results in a continuous stainless steel shine on any application. Nothing protects hoses from wear and blowout quite like real Stainless Steel braid. It looks great in any application and is as strong as, well, steel. But, custom hoses overbraided with stainless steel are expensive, selections are often limited and production and delivery times can be an issue.

Now, you can take any stock or custom hose, slip a length of Flexo Stainless over it, hide the cut ends under your clamps and have the same look and protection as custom overbraided hoses at a fraction of the cost.

Flexo Stainless XC is pre-rounded for easy, slip on installation and is available in diameters and expansion ranges to accommodate virtually any common hose or wire application.
■ **Braided Stainless Steel XC sleeving is used in applications where constant movement and high temperatures require a flexible, indestructible covering.**

■ **Colors Available:** Silver (SV)
